

# HAY AUCTION

## TORRINGTON LIVESTOCK

### 626 WEST VALLEY RD

### TORRINGTON, WY

**\$250 PER LOAD DEPOSIT AT TIME OF SALE. DEPOSIT WILL BE CREDITED AT COMPLETION OF HAY SETTLEMENT.**

Buyers are expected to arrange for hauling/delivery of hay purchased within 30 days of purchase. If hay is not picked up within 30 days, arrangements must be made and approved by both hay sale management and seller. If no such approval is obtained, and hay is not picked up within the required 30 day period, the deposit will be forfeited and hay will be put back on market.

Seller is responsible for providing loading on to buyer's truck. Seller is also responsible for arranging and paying for weighing on certified truck scale. These weigh tickets are the settlement weights that will be used for settlement for both sellers and buyers. Buyers are welcome to reweigh hay at destination if they choose, but destination weights will have no effect on settlement and should not be forwarded to Torrington Livestock.

Torrington Livestock expects to receive payment for full amounts of hay purchases within 7 days of invoice date.

There are a number of good options that will allow buyers to deliver their payment in a timely fashion. Buyers that are unable to deliver payments within the required 7 day period, will be assessed a late payment fee of two dollars (\$2) per ton.

**Supreme:** Very early maturity, pre bloom, soft fine stemmed, extra leafy. Factors indicative of very high nutritive content. Hay is excellent color and free of damage.

**Premium:** Early maturity, i.e., pre-bloom in legumes and pre-head in grass hays, extra leafy and fine stemmed factors indicative of a high nutritive content. Hay is green and free of damage.

**Good:** Early to average maturity, i.e., early to mid bloom in legumes and early head in grass hays, leafy, fine to medium stemmed, free of damage other than slight discoloration.

**Fair:** Late maturity, i.e., mid to late bloom in legumes and head in grass hays, moderate or below leaf content, and generally coarse stemmed. Hay may show light damage.

**Utility:** Hay in very late maturity, such as mature seed pods in legumes or mature head in grass hays, coarse stemmed. This category could include hay discounted due to excessive damage and heavy weed content or mold. Defects will be identified in markets reports when using this category.

**Auction Company makes every effort to represent hay properly. However no guarantee is made on RFV test. Wide variations are possible between test samples and different labs, our RFV Tests should be used as a guide only.**
